- The investment trust assets are separately managed by the Trustee under the Trust Act.
- A copy of Prospectus Issued upon Request could be obtained from a distributor. If you request this document, please make a personal record to that effect.

Objective and Characteristics of the Fund

Daiwa ETF TOPIX-17 REAL ESTATE

<Investment Objective>

The Fund aims to match the rate of change of NAV per unit of the Fund to that of TOPIX-17 REAL ESTATE.

<Characteristics of the Fund>

(1) The Fund will invest in stocks that are included and scheduled to be included in TOPIX-17 REAL ESTATE (hereinafter referred to as the “Index”) to match the rate of change of NAV per unit of the Fund to that of the Index.

- In principle, the Fund aims to invest in the stocks included in the Index that represent more than 95% of the total market value of the Index.
- To achieve the above, the Management Company may give instructions to adjust the components of the trust assets (including instructions to utilize stock index futures etc.).
- Depending on the market trends, and the size of Fund, etc., the management set out above may not be achieved.

<About TOPIX-17 REAL ESTATE>

◆[TOPIX 17 series] is a sector-specific stock price index that is summarized in 17 sectors based on 33 sectors classification calculated and announced by Tokyo Stock Exchange (hereafter referred to as “TSE”). Stocks listed on the 1st section of TSE are classified to 17 sectors, and are indexed based on market capitalization values. The aim of the series is tracking the changes of stock prices included in those sectors. Among them, the objective of [TOPIX-17 REAL ESTATE] are stocks included in [Real Estate] in 33 sectors classification.

◆The Index is calculated and disclosed by the TSE using aggregate market value as of the Base Time, which is December 30, 2002, as 100.(*1)

◆The continuity of the Index is ensured by adjusting the aggregate market value as of the Base Time, when the aggregate market value changes due to non-market factors including new listing, de-listings and issuance of new stocks.(*2)

(*1)Calculation method :

$$\text{Index} = \frac{\text{Market capitalization at the calculation time}}{\text{Market capitalization at the base time}} \times 100$$

(*2)Method of adjusting the aggregate market value as of the Base Time :

Adjusted Market capitalization at the base time =

Market capitalization at the base time applicable on the immediate preceding day of the adjusting date X

(Market capitalization applicable on the immediate preceding day of the adjusting date \pm Adjusting amount) \div

Market capitalization applicable on the immediate preceding day of the adjusting date)

- ① TOPIX-17 REAL ESTATE Index Value and the TOPIX-17 REAL ESTATE as well as TOPIX Trademarks are subject to the rights owned by the Tokyo Stock Exchange, Inc. and the Tokyo Stock Exchange, Inc. owns all rights and know-how relating to the TOPIX-17 REAL ESTATE such as calculation, publication and use of the TOPIX-17 REAL ESTATE as well as TOPIX Index.
- ② The Tokyo Stock Exchange, Inc. shall reserve the rights to change the methods of calculation or publication, to cease the calculation or publication of the TOPIX-17 REAL ESTATE Index Value or to change the TOPIX-17 REAL ESTATE Trademarks or cease the use thereof.
- ③ The Tokyo Stock Exchange, Inc. makes no warranty or representation whatsoever, either as to the results stemmed from the use of the TOPIX-17 REAL ESTATE Index Value and the TOPIX-17 REAL ESTATE as well as TOPIX Trademarks, or as to the figure at which the TOPIX-17 REAL ESTATE Index Value on any particular date.
- ④ The Tokyo Stock Exchange, Inc. gives no assurance regarding accuracy or completeness of the TOPIX-17 REAL ESTATE Index Value and data contained therein. Further, the Tokyo Stock Exchange, Inc. shall not be liable for the miscalculation, incorrect publication, delayed or interrupted publication of the TOPIX-17 REAL ESTATE Index Value.
- ⑤ Daiwa ETF TOPIX-17 REAL ESTATE is not in any way sponsored, endorsed or promoted by the Tokyo Stock Exchange, Inc.
- ⑥ The Tokyo Stock Exchange, Inc. shall not bear any obligation to give an explanation of Daiwa ETF TOPIX-17 REAL ESTATE or an advice on investments to any purchaser of the Fund or to the public.
- ⑦ The Tokyo Stock Exchange, Inc. neither selects specific stocks or groups thereof nor takes into account any needs of the issuing company or any purchaser of Daiwa ETF TOPIX-17 REAL ESTATE, for calculation of the TOPIX-17 REAL ESTATE Index Value.
- ⑧ Including but not limited to the foregoing, the Tokyo Stock Exchange, Inc. shall not be

responsible for any damage resulting from the issue and sale of Daiwa ETF TOPIX-17 REAL ESTATE.

(2) The structure of the Fund differs from that of the standard unlisted securities investment trusts.

- The units are listed on Tokyo Stock Exchange and can be traded in the same manner as listed stocks.
 - Trades may be made by minimum 1 unit.
 - The method of trading is generally the same as that of stocks.
- Subscription of additional units may be made for stocks.
 - Subscribers of additional units must apply for the Subscribing Basket at the time of subscription (which is the basket composed of the stocks included in TOPIX-17 REAL ESTATE in the ratio designated by the Management Company as equivalent to the component ratio of the stocks included in TOPIX-17 REAL ESTATE)
 - Unless specified otherwise, subscription for cash will not be accepted.
- Units of the Fund may be exchanged for stocks
 - Unitholders may apply to the Management Company for exchange of the units of the Fund belonging to them for the stocks equivalent to the portion of the trust assets represented by such units.
 - Units may not be redeemed for cash.
- Distribution will be paid to registered unitholders
 - Registered unitholders are those whose personal names or corporate names, addresses, and personal ID numbers or corporate ID numbers (or, personal names or corporate names, and addresses, in case of persons who do not have personal ID numbers or corporate ID numbers or who receive distributions through payment handling persons as provided for under Paragraph 1 of Article 9-3-2 of the Act on Special Measures Concerning Taxation) are registered by the Trustee as of the last day of each calculation period.

(3) The distribution will be made, in each calculation period, in the full amount of dividends received, interests received and other incomes arising from the trust assets after deduction of interests paid, management fee (trust fee) and other expenses similar to these.

Accounting Day is January 20th and July 20th of each year.

*There is no guarantee of the payment or the amount of distributions in the future.

Major Investment Restrictions

- There is no restriction on the investment ratio of the entire stock assets.

This English translation is not an official translation and is not required by laws or any regulation and it is offered for information purpose only. In case there are any inconsistencies between the official Japanese Delivery Prospectus and this English translation, the official Japanese version shall prevail.

- The Fund will not invest in assets denominated in foreign currencies.

Investment Risks

Factors to cause fluctuation of NAV per unit

- The Fund will invest in financial instruments whose prices fluctuate and as a result the NAV per unit of the Fund will also fluctuate. Therefore the invested amount will not be guaranteed and a loss of principal may be caused. All the gains and losses accrued to the trust assets will be attributable to the investors.
- Investment trusts are not deposits.

Major factors to cause fluctuation of NAV per unit:

Stock Price Volatility (Price Volatility Risks, Credit Risks)	Stock price changes based on the political and economic conditions, operating results of the issuer, and market supply and demand for the security. If the issuer becomes operationally distressed or goes bankrupt, all or a part of invested amount might not be returned. If the price of stocks included in the trust assets falls, the NAV per unit may fall below the invested amount. It may be possible for the Fund that a component weight of specific stocks becomes substantially large, which causes the NAV per unit of the Fund to be materially affected by the change of price of such stocks.
Other risks	When the trust assets of the Fund are invested in money market instruments such as call loans and/or certificates of deposit, losses may accrue due to default of the issuers of such instruments (the Credit Risk). This may cause the NAV per unit to decline.

*The factors to cause fluctuation of NAV per unit are not limited to those mentioned above.

Additional Considerations

- The provisions stipulated in Article 37-6 of the Financial Instruments and Exchange Act (so-called the “cooling-off period”) is not applicable to the investment to the Fund.

Risk Management System

- Based on the Investment Risk Management Policy set by the Board of Directors, the departments or committees in charge at the Management Company, which are independent from the fund management departments, will manage the risks by monitoring and overseeing the fund management department directly or indirectly.

Additional Items

- Points to note in relation to fluctuations of NAV per unit

This English translation is not an official translation and is not required by laws or any regulation and it is offered for information purpose only. In case there are any inconsistencies between the official Japanese Delivery Prospectus and this English translation, the official Japanese version shall prevail.

The Fund aims to match the rate of change of NAV per unit of the Fund to that of TOPIX-17 REAL ESTATE. However, we cannot guarantee that movements of NAV per unit will be exactly identical to those of the index for the following reasons:

- (a) As the Index represents the weighted average of the aggregate market price of the component stocks, we cannot make composition ratio of individual stocks in the Fund to be identically the same as the Index in terms of total market capitalization.
- (b) The Fund may incur expenses including management fees (trust fees), brokerage commissions, etc.
- (c) The stock prices used for trade execution could differ from those used for NAV calculation.
- (d) The stock prices used for calculation of the Index could differ from those used for NAV calculation.
- (e) The movement of index future price could differ from that of the Index (when index future is utilized).
- (f) The impact of the replacement of stocks included in the Index or the change of Index calculation methods.
- (g) The accrual of cash position in the trust assets, which arises from additional subscriptions, dividends received, etc.
