Objective and Characteristics of the Fund

Daiwa ETF – TOPIX HIGH DIVIDEND YIELD 40 INDEX

<Investment Objective>

The Fund aims to match the rate of change of NAV per unit of the Fund to that of TOPIX HIGH DIVIDEND YIELD 40 INDEX (which may be referred to as the “Index” hereinafter).

<Characteristics of the Fund>

(1) The Fund will invest in stocks that are included and scheduled to be included in TOPIX HIGH DIVIDEND YIELD 40 INDEX to match the rate of change of NAV per unit of the Fund to that of TOPIX HIGH DIVIDEND YIELD 40 INDEX.

- To achieve the above, the Management Company may give instructions to adjust the components of the trust assets (including instructions to utilize stock index futures etc.).
- Depending on the market trends, and the size of Fund, etc., the management set out above may not be achieved.

<About TOPIX HIGH DIVIDEND YIELD 40 INDEX>

◆ TOPIX High Dividend Yield 40 Index is composed of 40 issues with relatively high latest actual dividend yields, selected from among constituents of TOPIX 100 with market capitalization weighted average type (5% cap) .

◆ These constituents are selected based on the actual dividends of each issue and on the stock prices on the periodic selection base dates.

◆ Base date for index calculation is August 25, 2017. Base value is 1,000.

◆ Periodic review of constituents will be once a year (on the last business day of June).

◆ For further information, please check the following website.

(2) The structure of the Fund differs from that of the standard unlisted investment trusts.

- The units are listed on Tokyo Stock Exchange and can be traded in the same manner as listed stocks.
 - Trades may be made by minimum 10 units.
 - The method of trading is generally the same as that of stocks.
- Subscription of additional units may be made for stocks.
 - Subscribers of additional units must apply for the Subscribing Basket at the Time of Subscription (which is the basket composed of the stocks included in TOPIX HIGH DIVIDEND YIELD 40 INDEX in the ratio designated by the Management Company as equivalent to the component ratio of the stocks included in TOPIX HIGH DIVIDEND YIELD 40 INDEX).
 - Unless specified otherwise, subscription for cash will not be accepted.
- Units may be exchanged for stocks
 - Unitholders may apply to the Management Company for exchange of the units belonging to them for the stocks equivalent to the portion of the trust assets represented by the units.
 - Units may not be redeemed for cash.
- Distribution will be paid to registered unitholders
 - Registered unitholders are those whose personal names or corporate names, addresses, and personal ID numbers or corporate ID numbers (or, personal names or corporate names, and addresses, in case of persons who do not have personal ID numbers or corporate ID numbers or who receive distributions through payment handling persons as provided for under Paragraph 1 of Article 9-3-2 of the Act on Special Measures Concerning Taxation) are registered by the Trustee as of the last day of each calculation period.

(3) The distribution will be made, in each calculation period, in the full amount of dividends received, interests received and other incomes arising from the trust assets after deduction of interests paid, management fee (trust fee) and other expenses similar to these.

Accounting Day is February 10th, May 10th, August 10th, and November 10th of each year.

(Note): The first accounting period will end on November 10, 2017.

*There is no guarantee of the payment or the amount of distributions in the future.

Investment Risks

Factors to cause fluctuation of NAV per unit

- The Fund will invest in financial instruments whose prices fluctuate and as a result the NAV per unit of the Fund will also fluctuate. Therefore the invested amount will not be guaranteed and a loss of principal may be caused. All the gains and losses accrued to the trust assets will be attributable to the investors.
- Investment trusts are not deposits.

This English translation is not an official translation and is not required by laws or any regulation and it is offered for information purpose only. In case there are any inconsistencies between the official Japanese Delivery Prospectus and this English translation, the official Japanese version shall prevail.

Major factors to cause fluctuation of NAV per unit:

Stock Price Volatility (Price Volatility Risks, Credit Risks)	Stock price changes based on the political and economic conditions, operating results of the issuer, and market supply and demand for the security. If the issuer becomes operationally distressed or goes bankrupt, all or part of invested amount might not be returned. If the price of stocks included in the trust assets falls, the NAV per unit may fall below the invested amount.
Other risks	When the trust assets of the Fund are invested in money market instruments such as call loans and/or certificates of deposit, losses may accrue due to default of the issuers of such instruments (the Credit Risk). This may cause the NAV per unit to decline.

*The factors to cause fluctuation of NAV per unit are not limited to those mentioned above.

Additional Considerations

- The provisions stipulated in Article 37-6 of the Financial Instruments and Exchange Act (so-called the “cooling-off period”) is not applicable to the investment to the Fund.

Risk Management System

- Based on the Investment Risk Management Policy set by the Board of Directors, the departments or committees in charge at the Management Company, which are independent from the fund management departments, will manage the risks by monitoring and overseeing the fund management department directly or indirectly.

Additional Items

- Points to note in relation to fluctuations of NAV per unit

The Fund aims to match the rate of change of NAV per unit of the Fund to that of TOPIX HIGH DIVIDEND YIELD 40 INDEX. However, we cannot guarantee that movements of NAV per unit will be exactly identical to those of the index for the following reasons:

- (a) We cannot make composition ratio of individual stocks in the Fund to be identically the same as the Index in terms of total market capitalization.
- (b) The Fund may incur expenses including management fees (trust fees), brokerage commissions, etc.
- (c) The stock prices used for trade execution could differ from those used for NAV calculation.
- (d) The stock prices used for calculation of the Index could differ from those used for NAV calculation.
- (e) The movement of index future price could differ from that of the Index (when index future is utilized).
- (f) The impact of the replacement of stocks included in the Index or the change of Index calculation methods.
- (g) The accrual of cash position in the trust assets, which arises from additional subscriptions, dividends received, etc.

※ As of the Filing Date (end of August 2018), index future of TOPIX HIGH DIVIDEND YIELD 40
